Lottery

If CASA has more accepted applicants than available seats, representatives from the school will randomly select students from among a qualified, accepted group, using a public lottery. After all seats have been filled, the remaining students will be placed on a waiting list in the order in which they were drawn (from the pool of accepted applicants received before the deadline of January 31, 2024). Any student who auditioned and was accepted after the deadline of January 31, 2024, will be added to the waiting list in the order in which their application was received.

The lottery will be open to the public and the school will notify all applicants of the time and place of the lottery, if needed.

Harrisburg School District students and siblings of current students receive first preference.

Order of the drawing – Grade 12, 11, 10, 9, by discipline – for example – the drawing for grade 12 music, etc.
